ND FISHING GUIDE

New for 2008-2010 Summary of major changes.

- Any container used to hold bait must be free of aquatic vegetation.
- Spottail shiners are no longer a legal live baitfish.
- Establishes a wanton waste restriction. No person shall possess any game fish species and then waste, destroy or abandon the edible flesh (filets).
- Clarifies there is no storage limit for fish filets at one's personal permanent residence; however, at no time may a person transport more than a possession limit.
- Clarifies that gifting fish (giving fish to another person) is legal. However, the individual giving the fish must include on the packages of fish their name, fishing license number, phone number, date, and number and species of fish included.
- The packaging of fish away from one's permanent residence must be done so that the number of fish in each package is easily determined.
- Two weeks are added to the darkhouse spearfishing season (will now run through March 15).
- Opened 16 additional lakes to darkhouse spearfishing.
- Removed the maximum size (12 inches in diameter) of a hole for ice fishing. However, when a hole greater than 10 inches in diameter is left in the ice for any reason, the hole must be adequately marked with a natural object or colored or painted wooden lath which must be visible from a minimum of 150 feet.
- Clarifies that it is illegal to introduce any substance in waters of the state for the purpose of attracting fish that is not attached or applied to a lure. Decoys used for darkhouse spearfishing are excluded.
- In years when the paddlefish harvest cap (1,000 fish) will likely occur before the official end of the season (May 31), the 60 hour public notice to close paddlefish season is changed to 36 hours.
- Removed the 14-inch minimum walleye size restriction on Lake Elsie, Brewer Lake and Dead Colt Creek Dam. All size restrictions for Sprague Lake and Lake Tewaukon are also removed.
- It is illegal to leave fish houses on state-owned or managed land after March 15 of each fishing year.
- New regulations are in place to reduce the threat of aquatic nuisance species (ANS). ANS include species of animals, plants, and even diseases which are not native to North Dakota and have the likelihood to become well established if introduced. If/when introduced, the ANS then have the ability to displace native flora and fauna, and cause serious hardships (including financial) to the citizens of North Dakota.
- To comply with these ANS regulations, anglers and boaters must:
 - Remove all aquatic vegetation from your boat, trailer, etc. when you leave the water body.
 - Remove all aquatic vegetation from your bait bucket when you leave the water body.
 - Drain all water from your boat, jet ski, etc. at the ramp site before you leave the water body.
(Note: livewells and bait buckets used to transport fish are exempt).
- Do not dump bait into a water body.
- Please refer to pages 28 through 31 for more detailed information regarding ANS.

FISHING LICENSES

These regulations are in effect for two years from April 1, 2008 through March 31, 2010. A fishing year is defined as April 1 of one calendar year through March 31 of the following calendar year. NOTE: In the event of emergency changes to the 2008-10 proclamation, Game and Fish will issue a statewide press release and post new information on its website.

Licenses are valid for one year starting April 1 and ending March 31 of the following year. An angler must possess a valid fishing license for the respective season in which they're fishing.

Residents 16 years of age and older need licenses. Residents under age 16 may take and possess a limit of fish without a fishing license. Any nonresident under age 16 may take and possess a limit of fish without a nonresident fishing license if accompanied by an adult possessing a valid fishing license.

North Dakota residents who are on leave from active duty with the United States military can fish without a license. Contact the Department for details.

Nonresident full-time students living in North Dakota, who are attending a state or tribal college, or a private institution of higher education, may qualify for purchasing resident fishing licenses. Contact the Department for details.

Some licenses are in the form of stamps. Stamps must be pasted to a Fishing, Hunting, and Furbearer certificate and must also be signed.

The licensee shall carry the fishing license on his/her person at all times while fishing.

Free Fishing Days – Residents of North Dakota may fish without a resident fishing license on June 5 and June 6, 2010.

PIZZA RANCH, THE

PIZZA RANCH, THE

FACTS ABOUT DEVILS LAKE

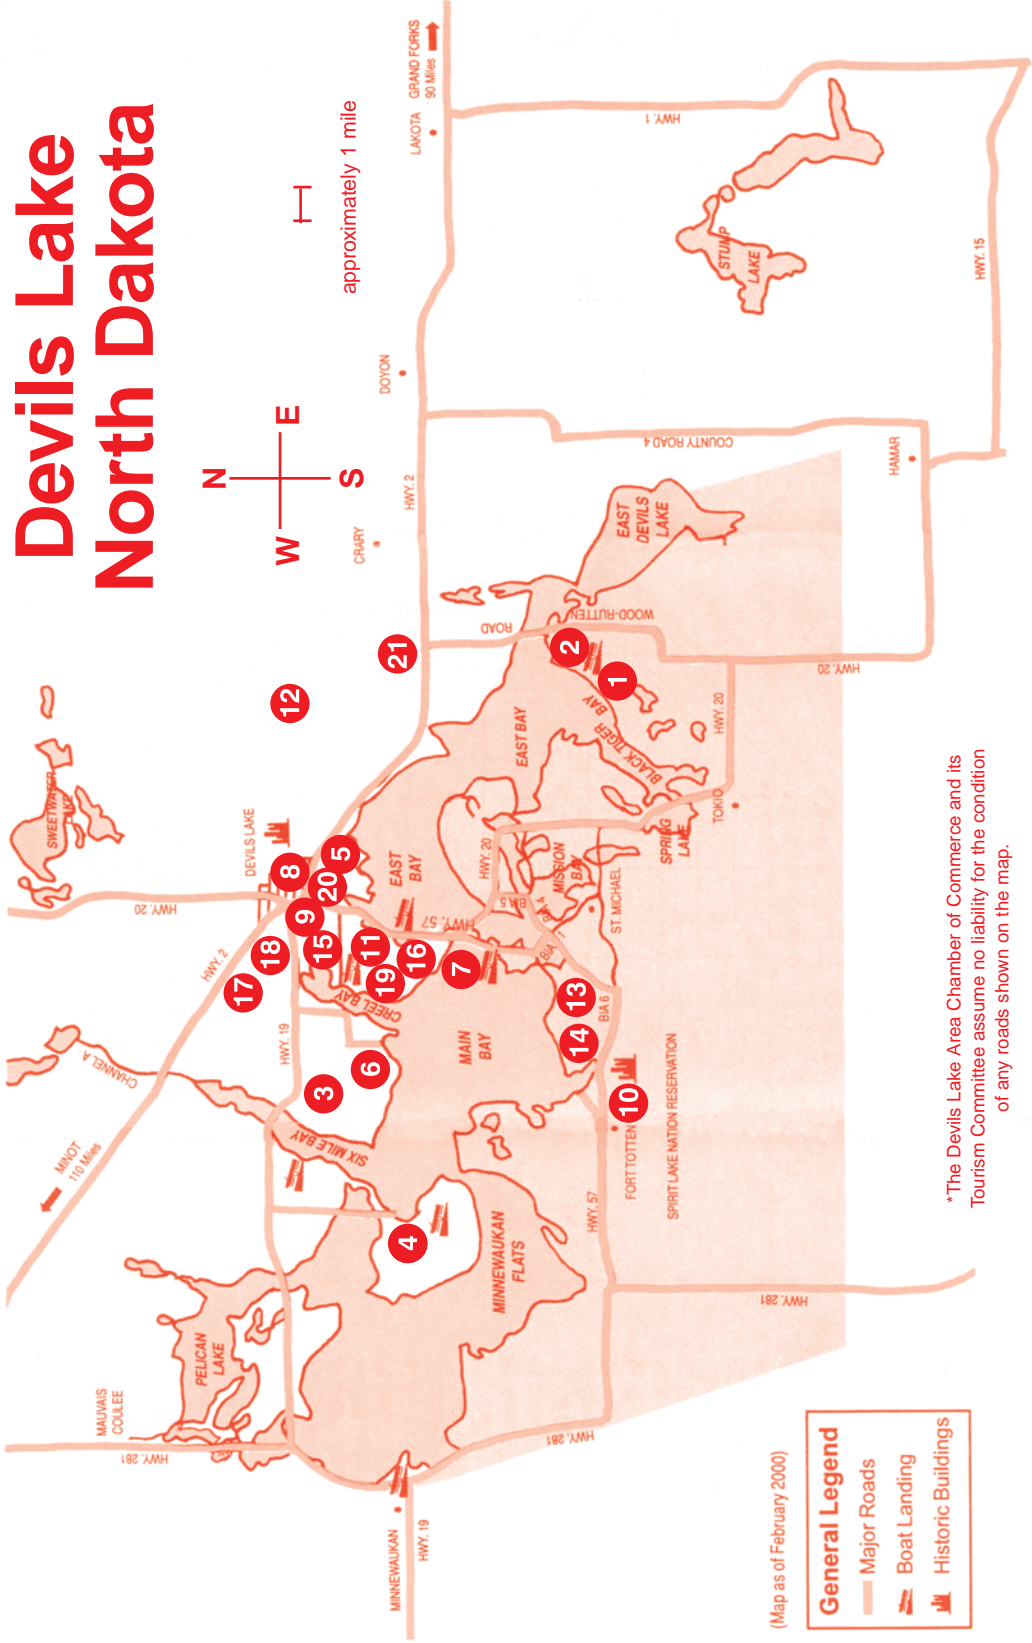

- Largest Natural Body of Water in North Dakota
- Abundant with Whopper Perch, Walleye, Northern Pike, -White Bass, Muskie and Crappie

- Music, Theatre, Arts, Museums, Culture, Gaming, and Entertainment are all Available
- Retail Businesses offer Vast Selections of Merchandise and Dining Experiences
- Numerous Educational, Military and Medical Opportunities
- Serviced by Air, Land and Rail

FISH LENGTH-WEIGHT TABLE

The following table is intended to assist an angler with a weight estimate based on the fish's length. The table shows the average weights of select fish statewide. The true weight of an individual fish may vary due to the sex of the fish, time of the year (e.g., spawning) when it is caught, the health of the fish and the water body from which it is caught.

	Bluegill	Yellow Perch	White Bass	Small-mouth Bass	Large-mouth Bass	Walleye	Channel Catfish	Northern Pike
